

FEEDING AND ENERGY BALANCE STUDY

TOTAL ENERGY EXPENDITURE

Preparation for 3 month visit

In preparation for your visit to the Children's Hospital of Philadelphia (CHOP), we will want you to put a "study" diaper on your infant. This will help us get a urine sample when you arrive.

Supplies:

2 "study" diapers (diaper with cotton) - inside labeled biohazard bag

Instructions:

1. Just before you leave for your appointment at CHOP put the "study" diaper on your baby.

Each "study" diaper contains several cotton balls. These cotton balls should be strategically placed to collect the baby's urine.

- ▶ If the diaper is soiled with stool or becomes unusable for any reason, remove the diaper and replace it with a "study" diaper from one of the extra bags

2. The "study" diaper will be removed when you arrive for your visit at CHOP.

If you have any questions, please feel free to call the team at (215) 898-3216, Judy Verger at (215) 746-2741, or Barbara Medoff-Cooper at (215) 898-3399.

Thank you!!!
