### THIS DAY IN CHOPR HISTORY

**31** CHOPR Research was showcased in a highly visible *Philadelphia Inquirer* news story which subsequently won the 1998 American Academy of Nursing Media Award. The front

page headline read, "Magnet Hospitals Tout Nursing Care Quality," and focused on ANCC's Magnet® Hospital Recognition Program. It explained just how nursing research, aimed at setting standards for nursing care, contributes to the development of public policy. The AAN Media Award recognizes exemplary journalism that reports on health or health care with accurate inclusion of nurses' contributions or perspectives.
