INTRODUCTION

UNIVERSITY OF PENNSYLVANIA NONDISCRIMINATION STATEMENT
The University of Pennsylvania values diversity and seeks talented students, faculty and staff from diverse backgrounds. The University of Pennsylvania does not discriminate on the basis of race, color, sex, sexual orientation, gender identity, religion, creed, national or ethnic origin, citizenship status, age, disability, veteran status or any other legally protected class status in the administration of its admissions, financial aid, educational or athletic programs, or other University-administered programs or in its employment practices. Questions or complaints regarding this policy should be directed to the Executive Director of the Office of Affirmative Action and Equal Opportunity Programs, Franklin Building, 3451 Walnut Street, Suite 421, Philadelphia, PA 19104-6106; or (215) 898-6993 (Voice). The University of Pennsylvania values diversity and seeks talented students, faculty, and staff from diverse backgrounds.

Supplemental Handbook
Students in the Nurse Anesthesia Programs must also abide by the regulations listed in Nurse Anesthesia Program Graduate Student Handbook Addendum.

In addition, all DNP students are responsible for the policies and regulations listed in the University of Pennsylvania Pennbook.

Students should read this document in full upon admission to the program and refer to the documents as they move through their curriculum.

Academic Calendar
Academic Year Terms
The School of Nursing follows the University Academic Calendar in the Fall and Spring terms: http://www.upenn.edu/almanac/3yearcal.html
Summer Term
The School of Nursing Summer Calendar differs from the traditional University calendar: https://www.nursing.upenn.edu/student-services/registration/quick-links/

Disclaimer
The policies and procedures described in this manual are continually revised and updated. The School of Nursing and the University of Pennsylvania must reserve the right to make changes affecting policies, fees, curriculum, or any other matters announced in this publication. If you have questions regarding the contents of this handbook, please contact your Program Director or the Office of Academic Affairs at advisor@nursing.upenn.edu.
IMPORTANT SCHOOL OF NURSING POLICIES

Consistent with its mission and philosophy, Penn Nursing is committed to providing educational opportunities to students with disabilities. In accordance with the American with Disabilities Act and Section 504 of the Rehabilitation Act, the School provides reasonable accommodations to otherwise qualified students with disabilities. However, the decision regarding appropriate accommodations will be based on the specifics of each case. This office is responsible for assessing documentation and determining reasonable accommodations. Students who seek reasonable accommodations for disabilities must contact Student Disabilities Services. The office hours are Monday through Friday, from 9:00am to 5:00pm. Phone: (215) 573-9235; TDD: (215) 746-6320; FAX: (215) 746-6326; Email: vpul-lrcmail@pobox.upenn.edu Questions concerning these standards can be directed to advisor@nursing.upenn.edu.

All students at the University of Pennsylvania School of Nursing are required to adhere to all University and school-wide policies. Of note, here are a few of the School-wide Policies to review:

- Statement of Personal Attributes and Capabilities
- Student Social Media Policy
- Student Substance Abuse Policy
DEGREE REQUIREMENTS

DOCTOR OF NURSING PRACTICE PROGRAM REQUIREMENTS

Penn Nursing has been a leader in the science and practice of nursing since 1886. Being at the forefront of advancing science, delivering solutions, and shaping health policy and practice, the goal of the DNP program is developing leaders in practice innovation. The DNP program prepares professionals by providing education in the translation of research, implementation of evidence-based practice, project management, and leadership development.

Program Outcomes
Core outcomes are delineated in American Association of Colleges of Nursing (AACN) Essentials of Doctoral Education for Advanced Nursing Practice (2006) and regardless of specialty or functional focus are fundamental to the student’s pursuit of DNP education. At the completion of this advanced level of nursing education, Penn Nursing DNP graduates will:

- Lead in putting new ideas into practice or putting existing ideas into practice in new and different ways for specialized advanced nursing care
- Apply project management skills and data analytics to address improvements in patient, systems, and/or community outcomes of value
- Disseminate new knowledge that contributes to practice scholarship

Student learning outcomes (course objectives) in the following foundational core courses help students to achieve outcomes through mastery of content that all DNP students are expected to attain across all three tracks at Penn Nursing:

- N789 Principles & Practice of Quality Improvement and Patient Safety
- N540 Current Issues in Health and Social Policy
- N500 Introduction to Principles and Methods of Epidemiology
- N745 Data Analytics
- N651 Health Care Informatics

Penn Nursing offers a post-BSN entry DNP program for Nurse Anesthesia (DNP-NA), and has two post-MSN entry tracks: Post-Master’s DNP (PM-DNP) and Post-Master’s DNP in Executive Leadership (DNP-EL). For the DNP-NA track, additional courses in the curriculum are designed to prepare students for the full scope of nurse anesthesia practice in diverse clinical settings. The plans of study for the post-MSN entry DNP graduates support application of knowledge and the achievement of enhanced skills for leading practice change in health systems and designing important quality improvement initiatives. A minimum of 10 course units are required. See individual webpages for more information on each of the tracks including plans of study.

There are Guidelines for the DNP Scholarly Project found at the end of this handbook, pages 19-29.

Accreditation
Penn Nursing first achieved the maximum accreditation standing through the Commission on Collegiate Nursing Education (CCNE) in 2004, and we are scheduled to undergo program review again in Fall 2023. The CCNE, a division of the American Association of Colleges of Nursing, is officially recognized by the US Department of Education as an autonomous accrediting agency for baccalaureate and higher degree programs. Prior to 2004, the School was accredited by the National League for Nursing. In addition selected programs like the DNP-NA must meet the accreditation requirements of accrediting bodies specific for their specialty focus. The Council on Accreditation (COA) monitors the progress of nurse anesthesia programs, and Penn Nursing’s Nurse Anesthesia Program was fully approved in 2016.
Required by the CCNE for schools seeking accreditation for DNP programs, the [AACN DNP Essentials](#) outline the foundational competencies as listed below:

**Essential I: Scientific Underpinnings for Practice**
**Essential II: Organizational and Systems Leadership for Quality Improvement and Systems Thinking**
**Essential III: Clinical Scholarship and Analytical Methods for Evidence-Based Practice**
**Essential IV: Information Systems/Technology and Patient Care Technology for the Improvement and Transformation of Health Care**
**Essential V: Health Care Policy for Advocacy in Health Care**
**Essential VI: Inter-professional Collaboration for Improving Patient and Population Health Outcomes**
**Essential VII: Clinical Prevention and Population Health for Improving the Nation’s Health**
**Essential VIII: Advanced Nursing Practice**

**Expected Student Completion and Time Limitation**
The PMDNP is an online 11-course (10 course units), two-year part-time program. The DNPEL is an online 13 courses (11 course units), two-year part-time program. The DNP-NA is a 36 course unit, full-time program to be completed in three years. A maximum of five (5) calendar years, beginning with the initial graduate course following matriculation into the DNP program, is allowed for completion of the work for the DNP degree.

**Courses and Registration**
Students are responsible for their own registration. Students receive registration materials via e-mail one week prior to the start of Advance Registration. New or transfer students may register during the designated registration period that is held before the start of classes.

Information about how to register can be found on the [Registration](#) webpage.

**Registration Hold**
Each Nursing student is placed on registration hold before the start of the upcoming registration term. Each student must request registration “signoff” from the primary academic advisor (Program Director or Program Advisor) in order for the registration hold to be lifted and to register for classes. Students are encouraged to meet with their Program Director or Advisor in person. The registration holds are lifted by the Program Director/Advisor. This is an opportunity for students and the Program Director/Advisors to ensure that the plan of study and planned course registration is correct.

**Course Selection and Drop Period**
Students use Penn InTouch ([https://portal.apps.upenn.edu/penn_portal/intouch/splash.html](https://portal.apps.upenn.edu/penn_portal/intouch/splash.html)) to add, drop, or change a course or section. Courses may be added during the first two weeks of each semester.
Courses may be dropped through the fifth week of each semester.

Full refund of tuition and fees is automatic only during the first two full weeks of the term. For a full refund schedule, please see the Tuition Refund section below for more information.

Students wishing to drop a course after the end of the course selection and drop period will need to request to withdraw from the course.

Please note that should a student fail to attend classes in a course for which they are registered, they will not be automatically dropped from the course. Students who fail to drop a course they are not taking, but are still registered for, within the five-week course selection period may receive an “F” in that course. No tuition refunds will be issued.
Academic Advising
For most DNP students, the academic advisor is the Program Director, Associate Director, Track Director, or Clinical Faculty. Advisors are the principal source of assistance to students in planning an academic program, seeking advice and dealing with problems as they arise. The academic advisor(s) may or may not be the Faculty Lead for the DNP Project. If the advisor leaves the Standing Faculty of the School of Nursing through retirement or change of position, another advisor must be appointed. However, it is the responsibility of the student to maintain contact with the advisor. Faculty will make every effort to help students but cannot be expected to be responsible for problems not brought to their attention in a timely manner. For special academic options like taking a nursing elective during the DNP program, the elective must be a graduate nursing elective NURS 500+ level course. If applicable, a student must provide a written petition to the Program Director for a non-NURS course to be fulfilled as the elective. If approved, the student must forward the petition and Program Director approval to the Assistant Dean for Academic and Student Affairs for final approval.

Tuition and Fees
Tuition is charged based on the number of Course Units (CU) taken in a given semester. You will also be charged a General Fee and Technology Fee each semester, and in some semesters may be charged additional fees (such as simulation laboratory fees) that are associated with certain courses. For more information on tuition and costs, see DNP Costs webpage.

Tuition Refund
Full refund of tuition and fees is automatic only during the first two full weeks of the fall and spring terms - up to the end of the course selection period as determined on the university academic calendar. Fifty percent of tuition and fees is refunded for courses dropped during weeks three and four and must be requested through the Assistant Dean of Admissions and Academic Affairs. No refunds are given after week four. Please note that this policy pertains only to courses taken during the fall and spring semesters. Summer courses operate on a different refund schedule.

Tuition refund inquiries should be directed to the Penn Nursing Registrar.

Financial Assistance
Personalized financial assistance is available through the Penn Nursing Financial Aid Office. Additional information can be found at the Contacts page or by emailing financialaid@nursing.upenn.edu

University Website: Student Registration and Financial Services

Course Load
Full-time status for graduate students is defined as enrollment in three or more course units in the fall or spring semester or two course units in each summer session. Part-time status is defined as enrollment in less than three course units in the fall or spring semester or one course unit in a summer session.

Students registered for one or two course units in a term are classified as part-time, unless only the one or two course units are necessary to complete the degree requirements and the student has previously been enrolled as a full-time student, in which case the full-time classification applies.

The maximum course load is typically no more than 4.5 course units in the fall or spring semester and no more than two or three course units in a summer session. Students can request an overload to the maximum course load by emailing their Program Director.
Change of Grade Type

Pass/Fail
DNP students can take a maximum of two elective course units on a pass/fail basis, subject to individual course grading policies. It is the student’s responsibility to consult the instructor and/or syllabus regarding this option since the requirements for “pass” may vary. No DNP required courses can be taken on a pass/fail basis.

Students on academic probation may not take any courses pass/fail.

A letter grade may be changed to pass/fail or the reverse within the first five weeks of class. In the first two weeks, this can be done through Penn InTouch. After the end of the course selection period, this must be requested by sending an email to the Office of Student Information at registration@nursing.upenn.edu. Grade type will not be changed after the 5th week of class.

Audit
A student may request that the Penn Nursing Registrar change their status in a course to auditor, provided that the request is approved by the DNP Director and the instructor giving the course and is submitted to the Penn Nursing Registrar at registration@nursing.upenn.edu no later than the end of the second week of the term. Courses taken for audit will not count toward degree requirements.

Summer Sessions
There are two six-week sessions offered each summer. The first session begins after spring final exams and runs through June. The second semester begins in late June / early July and runs through mid-August. Some courses are offered in a 12-week format over both summer sessions. Registration for summer and fall courses occurs simultaneously during the Advance Registration period in the spring semester. Unlike fall and spring registration, summer registration is on a first-come, first-served basis.

Class Attendance and Absence
As earlier mentioned, there are University Policies outlined in the Pennbook. Please refer to Policy on Secular and Religious Holidays in the event of an absence related to religious or other observed holiday. Otherwise, students are required to attend all clinical/scholarly project components of their course work. Absences will not be excused except for a documented illness (of the student), family death or critical illness. Students with excessive excused absences may be asked to share the cost of the make-up hours with Penn Nursing. Excessive absences for any reason may necessitate repetition of the entire course.

Unexcused absences may result in the student’s inability to successfully complete course objectives, consequently poor academic student performance and non-progression. If the course director allows a student to make up an unexcused absence from clinical or project visit, the student must pay the current rate per day missed.

Course Withdrawal
After the 5th week of classes, courses may not be dropped. Students may petition to withdraw from the course up until the 10th week of the semester by submitting a course withdrawal form to the course instructor and the Assistant Dean of Academic and Student Affairs. If the withdrawal is approved, the registration for the course remains on the record and the notation of “W” is placed as a permanent entry in the grade section of the student’s transcript. The “W” does not affect the student’s grade point average. A student may only attempt a required Nursing course twice; therefore, only one withdraw per course will be permitted.

After the tenth week of the semester, withdrawals are not normally permitted. Students who have a
serious and compelling extenuating circumstance may petition the Academic Standards and Progressions Committee to grant a late withdrawal for a course. Students petitioning for an exception must obtain written support from the instructor for the committee to consider the petition.

The Course Withdrawal Form can be found online: http://www.nursing.upenn.edu/student-services/resources/handbooks-forms-policies/

Leave of Absence
DNP students must request a leave of absence if not enrolled in coursework for two or more consecutive semesters. A leave of absence for a period of up to one academic year may be granted when circumstances necessitate the interruption of academic work. In unusual circumstances, and at the written request of the student, such leaves may be extended for no longer than one additional year. This period may include either consecutive or nonconsecutive terms.

Please see the Leave of Absence Policy for more details.

Transfer Credit
A maximum of two course units (or their equivalents) may be approved for transfer credit for the DNPNA and PMDNP tracks and for external coursework for the DNPEL. Up to three course units may be approved for transfer credit for graduates of the University of Pennsylvania Nursing & Healthcare Administration and Health Leadership master’s programs. Eligible courses must meet the following criteria:

- Taken at the graduate level
- Taken at an accredited, four-year institution
- Final grade of B or higher (no pass/fail or audit)
- Taken prior to admission to the University of Pennsylvania MSN or DNP program

All transfer credit decisions are at the discretion of the course faculty. See “Transfer Credit Procedures” for the timeline and instructions on submitting course work for review: https://www.nursing.upenn.edu/student-services/registration/transfer-credit/.

Following transfer credit evaluation, a Plan of Study will be developed and finalized by the Program/Track Director. Several principles will guide the award of transfer credit and the following criteria must be met:

Only courses taken in an accredited School of Nursing (or university for DNPEL students who may have attended non-nursing graduate schools) are acceptable for transfer. Courses must have a grade of B or better. A grade of pass is not acceptable.

Grade Reports and Transcripts
At the end of each semester, students may access PennInTouch for a listing of final grades and can request to receive their grade report by mail from the Office of the Registrar.

Transcripts are maintained by the Office of the Registrar, not by Penn Nursing. Students can request transcripts through the Office of the Registrar or order them online through PennInTouch.

Office of the Registrar website: http://www.upenn.edu/registrar/.

Course Materials
Canvas Learning Management Platform
Canvas is the Learning Management System used at the University of Pennsylvania. Students use Canvas to access their course content, upload assignments, and interact online with their instructors and classmates. Once you register for a course, you will be added to the Canvas site. Please note that sites are published individually by instructors each semester, so you may not see all registered courses in your
Students can log in to Canvas at [http://www.library.upenn.edu/courseware/canvas/canvaslogin.html](http://www.library.upenn.edu/courseware/canvas/canvaslogin.html).

**Course/Faculty Evaluations**
At the end of each course, students evaluate the course and its instructor. The results of these evaluations are maintained by the Office of Student Information.

The Penn Course Review is a student-run publication that lists the numerical ratings and general comments for some graduate courses: [https://secure.www.upenn.edu/vpul/coursereview/](https://secure.www.upenn.edu/vpul/coursereview/)

**Nursing Email Account**
All students at the School of Nursing must open and maintain a Nursing email account and list it as the primary email in the Penn Directory by the last day to add a course each semester, including summer sessions. Students who do not comply by the deadline will be put on registration hold and will be unable to make registration changes in PennInTouch.

Please visit the link below to set up your Nursing email: [https://www.nursing.upenn.edu/its/resources/student/](https://www.nursing.upenn.edu/its/resources/student/)

Please visit the link below to make your Nursing email the primary email in the Penn Directory: [http://www.upenn.edu/directories/](http://www.upenn.edu/directories/)
ACADEMIC REGULATIONS

STUDENT IN GOOD STANDING

A student in good standing is defined as a student who:

- Maintains the proper GPA
- Maintains the proper course load (without incompletes)
- Is not on academic probation
- Does not have two consecutive semesters of non-enrollment
- Is on an approved leave of absence
- Is not on financial hold nor carrying past due balances
- Has completed the immunizations, background check, and drug screening processes with no identified problems

A student must maintain a cumulative grade point average (GPA) of 3.0 to remain in good academic standing and to graduate from the School of Nursing and the University.

Warning

A student who has a cumulative GPA or single semester term GPA between 2.5 and 3.0 will be given a warning notice.

Probation

A student will be placed on probation if they:

- has a cumulative GPA of less than 2.5 at the end of any semester
- has a term GPA below 2.5 at the end of any semester
- has a cumulative GPA of less than 3.0 for two consecutive semesters
- has a cumulative GPA of less than 3.0 in Nursing core, theory, and clinical courses (required courses)
- has failed a required Nursing core, theory, or clinical course (required course) A student on probation may not take classes pass/fail.

Dismissal

A student will be withdrawn from the Penn Nursing for failing a required Nursing course twice. A student who has been on academic probation for at least one semester and who has a cumulative GPA below 3.0 for two consecutive semesters may be withdrawn from the Penn Nursing.

Grading Policies

The Grade Point Average (GPA) is tabulated at the end of each semester. A minimum of a C- is needed to pass a non-clinical graduate level course (a grade lower than this will be reported as an F on the student’s transcript). A minimum grade of B- is needed to pass a clinical or DNP project course (a grade lower than this will be reported as an F on the student’s transcript). All course grading policies are at the discretion of individual course instructors.

</tbody>
</table>

GPA Calculation

To calculate the GPA, the following formula should be used:

\[ \text{GPA} = \frac{\text{SUM (C.U. x GRADE)}}{\text{TOTAL C.U.s}} \]
The GPA is calculated by multiplying the course unit for each course (usually 1 c.u.) by the numerical equivalent for the grade received in the course, adding the total number and dividing by the total number of credits taken. Averages are tabulated for each semester and on a cumulative basis. When a course is taken as Pass/Fail, the grade of P (pass) is not calculated into the grade point average. However, if an F (fail) is received in a Pass/Fail course, it is calculated into the GPA.

**Other GPA Notations (NR / GR / W)**
The notations of NR and GR indicate that the grade has not been received by the Registrar. All NRs (instructor did not submit grades for the course) and GRs (instructor did not enter a grade for the student in question) must be cleared from the student’s transcript before graduation. The notation W indicates an approved withdrawal from a course.

**Course Failure**
If a required course is failed, it must be repeated at the next available offering and a satisfactory grade must be achieved. The repeated course may not be taken with the Pass/Fail Option. Any courses for which the failed course is a prerequisite may not be taken until a satisfactory grade in the prerequisite course has been achieved. However, the “F” remains on the transcript even though the student has repeated the course and obtained a passing grade or above. The “F” is still calculated into the cumulative GPA.

Students will receive an “F” in a clinical/DNP project course if they fail to meet objectives or if they are removed from the clinical setting for unsafe practice at any point during the course. A student who is failing a clinical/DNP project course for unsafe practice may not withdraw from the course. In the event of a failure for unsafe practice, the Academic Standards and Progressions Committee and Program Director will define the conditions under which the student may repeat the course.

A student may only attempt a required Nursing course twice. A student will be withdrawn from Penn Nursing for failing a required Nursing course twice or withdrawing from the course on the first attempt and failing the course on the second attempt or vice versa.

**Incomplete Policy**
A student who fails to complete a course within the prescribed period and does not withdraw from the course or change their status to auditor will receive, at the instructor’s discretion, either a grade of I (incomplete) or F (failure).

A grade of incomplete is assigned by the instructor only under the following conditions:

- The student has academic good standing in the course with a passing grade average.
- The student has no more than two outstanding course requirements unmet in the course.
- The student and instructor have completed a Learning Plan to Achieve Complete Course Work (see Appendix VI)
- The student and instructor have an agreed date of submission for all outstanding course requirements. This date is no later than the end of the academic term that follows the term in which the grade of incomplete is assigned.

These conditions must be conveyed to the Office of Student Information via email and approved by the Assistant Dean or their designee before the grade of incomplete is assigned. Except in unusual and extreme situations, the “I” must be removed within the following academic term. Only with the approval of the Assistant Dean for Academic Affairs or the Associate Dean for Academic Programs, the instructor may permit an extension of time up to one year for the completion of the course. Incomplete extensions must be accompanied by a written faculty approval on file with the Office of Student Information. Any grade of incomplete which remains after one calendar year from date of assignment becomes a permanent incomplete grade designated by the mark I* on the student’s record and is not credited toward any degree.
ACADEMIC STANDARDS AND PROGRESSIONS COMMITTEE

All matters of academic discipline are acted upon through the Academic Standards and Progressions Committee of the School of Nursing. The Academic Standards and Progressions Committee is the highest ruling body in the School of Nursing. (Note: The Doctoral Progressions Committee holds the same level within the Ph.D. Program). The Academic Standards and Progressions Committee reserves the right to make decisions in the best interest of the student and the School of Nursing.

Meetings
The Academic Standards and Progressions Committee meets three times a year at the close of the fall, spring, and summer semesters, and as needed, to rule on specific academic problems.

Purview
The cases of students with academic concerns are presented to the Academic Standards and Progressions Committee for action. Committee deliberations may result in issuing a warning, placing the student on probation, or withdrawing the student from Penn Nursing. Students will receive a letter informing them of the Committee’s decision and outlining the required course of action. A copy will be sent to the student’s faculty advisor.

Petitions
Other academic problems may be brought to the Academic Standards and Progressions Committee for action. A student must petition the Committee in writing, describing the situation, and may be asked to present their case at the Committee meeting. The petition should be submitted to the Assistant Dean for Admissions and Academic Affairs.

ACADEMIC INTEGRITY POLICIES

Since the University is an academic community, its fundamental purpose is the pursuit of knowledge. Essential to the success of this educational mission is a commitment to the principles of academic integrity. Every member of the University community is responsible for upholding the highest standards of honesty at all times. Students, as members of the community, are also responsible for adhering to the principles and spirit of the University’s Code for Academic Integrity. If you have any questions about the Code or the processes required by the Code, please contact the Office of Student Conduct directly by calling 215-898-5651, the office located in 207 Duhring Wing, 236 S. 34th Street, Philadelphia, PA 19104.
**Office of Student Conduct**
The Office of Student Conduct (OSC) is responsible for acting on behalf of the University in matters of student discipline. OSC deals with alleged instances of academic dishonesty and other student misconduct, to determine how best to resolve these allegations consistent with the goals and mission of the University as an educational and intellectual community. (Note: As of January 2015, all alleged violations of the University’s Sexual Violence, Relationship Violence and Stalking Policy are handled by the Sexual Violence Investigative Officer).

For detailed information regarding the Disciplinary Process, resources for students and faculty, and frequently asked questions, please consult the OSC website: https://www.osc.upenn.edu/.

**Examination Policies**
Examinations at Penn Nursing courses are governed by the rules on examinations from the Office of the Provost: http://www.upenn.edu/registrar/ In the left column, click “Final Exam Information” under the appropriate semester. Click “Provost Rules”.

Students with such special circumstances as time conflicts between multiple exams, illness, or grave personal difficulties such as a death in the family should petition the faculty immediately to work with and find a resolution.

**Readmission to the DNP Program**
For DNP students who wish to be considered for readmission to the DNP program following academic discipline, the request is reviewed by the Academic Standards and Progressions Committee. The Academic Standards and Progressions Committee is the highest ruling body at Penn Nursing with regard to readmission decisions; as such, it has the final say.

The student should indicate interest in readmission by emailing the Office of Student Services at advisor@nursing.upenn.edu at least six months before the desired return date. The following materials are required for the readmission petition to be considered:

- A letter requesting readmission addressed to the Academic Standards and Progression Committee
- Two letters of recommendation, preferably from managers or those who have supervised the student (to be sent directly from the recommender to advisor@nursing.upenn.edu)
- A resume
- Any transcripts from institutions attended since separating from Penn.

The Associate Director for Graduate Academic Affairs will forward the materials to the DNP Program Director(s). The DNP Program Director(s) will communicate with the applicant if any additional admissions requirements, such as an interview, are needed.

The Program Director(s) will review the applicant and communicate their recommendation to the Associate Director for Graduate Academic Affairs prior to the next scheduled meeting of the Academic Standards and Progression Committee. If the DNP Program Director(s) recommend readmission, an updated plan of study should be provided.

The readmission materials and DNP Program Director(s)' recommendation will be reviewed by the Academic Standards and Progression Committee and the student will be notified of the decision.
GRIEVANCE POLICY

This policy exists for the resolution of disagreements between students and instructors for academic matters. A student must first have submitted a written appeal regarding the academic matter in question to the appropriate instructor or instructors. Email appeals are permitted. After a decision is made by the instructor(s), the issue, if unresolved, may be appealed to the Associate Dean for Academic Programs. The Associate Dean for Academic Programs will consult with the instructor(s) and attempt to resolve any process disputes, but the faculty retains the final decision about the grade for the assignment or the course. If the matter continues to be unresolved to the satisfaction of the student and the instructor(s), the issue will be referred to the Academic Standards and Progressions Committee (ASPC). The ASPC will review the situation to determine if grading processes have been applied fairly and will provide recommendations to the instructor(s) about process improvements.

Types of Grievances: Commonly, grievances fall into 2 categories:

1. Grade Disagreement Re-evaluation of a grade given on an individual assignment or for a course.
2. Appeal of the decision to dismiss the student from the school, usually for unsafe practice; significant failure to perform academically; failure to correspond with the Office of Student Services according to stipulations in Leave of Absence letters.

Grade Disagreement
The role of the ASPC in matters of grade disagreement is to investigate the processes used by faculty in determining the grade and advise the faculty member in handling any perceived problems with applying grading processes outlined in the syllabus or any other apparent violations of fairness. The Faculty member ultimately determines the grade that is awarded.

The ASPC is the only body in the School of Nursing that can dismiss a student for severely poor academic performance, failure to return from a leave of absence/ failure to correspond with the School, unsafe clinical practice or other serious problems.

Determining that clinical practice is unsafe: clinical practice that is considered unsafe must be evaluated as such by more than one faculty member involved in the course, usually the faculty member serving as the student’s clinical instructor and the Course Director or Program Director. The faculty will then consult the Associate Dean for Academic Programs who may choose to meet with the student and will consult with the faculty about potential processes to improve student performance. If it is determined that the student’s clinical practice is so unsafe that she/he must be removed from clinical, the faculty will determine if the student has failed the course. The ASPC will be consulted and will review documentation leading to the determination of unsafe practice and course failure. In collaboration with the faculty, the ASPC will determine if the student will be permitted to re-take the course or if the student is to be dismissed from the School.

Options Following Dismissal
In the event that the ASPC dismisses a student from the School, the student may request a meeting with the Academic Standards and Progression Committee. The ASPC has the option to reconsider the decision or to uphold it. The ASPC must defer to faculty and teaching staff on all academic decisions related to dismissal.
**Appeal to the Academic Standards and Progression Committee**

The only ASPC decision a student may petition is that of dismissal from the School. The appeals process is as follows:

1. The student must submit a written petition to appeal the dismissal within 30 days of notification of the decision. The petition must include the grounds for appeal, which are limited to a) procedural error, b) bias on the part of the ASPC or any of its members, or c) dismissal that was arbitrary or capricious and without any reasonable basis. The petition should be sent to the Assistant Dean for Admissions and Academic Affairs.

2. Written petitions for appeal of dismissal are evaluated by an ad hoc Appeals Committee appointed by the Dean of the School of Nursing. The Appeals Committee shall be comprised of three members of the Standing Faculty, one of whom will be designated Chair.

3. The student may request, in the written petition, the opportunity to address the membership of the Appeals Committee.

4. The Appeals Committee will review relevant background materials, including relevant academic history and any supporting materials submitted by the student. The Appeals Committee may seek additional information or consultation from School or University officials as its members deem appropriate.

5. The Appeals Committee must defer to faculty and teaching staff on all academic decisions related to the dismissal.

6. The Appeals Committee deliberates and votes in private. In voting, the Appeals Committee may consider the following among the possible options: a) uphold the dismissal, or b) return the dismissal decision to the ASPC for further consideration.

7. The Appeals Committee reports the results of the vote and any supporting rationale to the Dean. The Appeals Committee is advisory to the Dean. The Dean holds the final decision.

8. In the case that the Dean decides to ask the ASPC to further consider a decision to dismiss in light of such an Appeal’s Committee review, ASPC’s decision to uphold dismissal after such further consideration cannot be appealed.

**Role of the Ombudsman**

The Office of the Ombudsman at the University of Pennsylvania serves as a mechanism for students, faculty, staff, and administrators who have a specific problem or dispute that they may not have been able to resolve through other channels. The overarching mission of the Office of the Ombudsman is to resolve issues of equity and justice at the University of Pennsylvania before the tensions of polarization escalate.

The office is concerned with safeguarding individual rights and promoting better channels of communication throughout the University. It is independent of all administrative offices. The Ombudsman is not an advocate for any one individual or group. He or she is an advocate for fairness, adherence to University regulations, due process, and personal responsibility. The Office supplements, but does not replace, any existing grievance mechanisms or modes of redress. It can and does recommend changes in the existing rules and practices when necessary.

Students may contact the Office of the Ombudsman for consultation at any time during the grievance process. The Ombudsman may advise students about process issues and may choose to discuss the issue with relevant faculty or the Associate Dean for Academic Programs. The Ombudsman does not function as a true appeal process in that they do not attempt to overturn a faculty decision about student performance.

For more information about the Office of the Ombudsman, please visit [http://www.upenn.edu/ombudsman/](http://www.upenn.edu/ombudsman/) or contact the office at 215-898-8261 or ombuds@pobox.upenn.edu.
Confidentiality of Student Records
Federal law, the Family Educational Rights and Privacy Act (FERPA), protects the privacy of student "education" records — which generally includes information maintained by Penn that identifies a student. Students should be aware of their rights under FERPA and faculty and staff should be aware of and follow their obligations under FERPA.
For more detail, the University policy, which incorporates legal requirements, is available via Pennbook. As a general rule, personally identifiable information from education records may not be disclosed to other parties without the student’s prior written or electronic consent. The University and Penn Nursing generally will not share personally identifiable information (other than directory information) from a student’s education records with third parties, including parents or guardians, without student consent, except in limited circumstances where such disclosure is permitted under FERPA (described below) and where the University determines in its discretion that disclosure is appropriate. Disclosure is permitted:
1. In connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.
2. To the parent or legal guardian of a student under the age of 21, information regarding the student’s violation of a University policy governing the use or possession of alcohol or drugs.
3. To a person who submits a written affirmation that he or she is the parent or legal guardian of a student and that the student is a dependent within the meaning of Section 152 of the Internal Revenue Code of 1954.
4. In other limited circumstances as allowed under FERPA and its implementing regulations, as they may be amended.
For more information regarding FERBA and Penn Nursing’s commitment to student privacy and confidentiality, see Records.

Students’ Rights to Inspect and Seek Correction of Records
Students are entitled to inspect and review their records. They are not entitled to inspect personal notes of faculty or administrative staff that are solely held by the maker of the notes, confidential letters and statements subject to waiver, or parts of their record that contain information about another student.
Students may be allowed to copy their records, upon payment of a nominal charge. Students also have the right to seek correction of their records.

Officials responsible for student records, such as the Registrar and school or department business offices, are required to maintain a record of requests for access and disclosures of student records, except in cases where the request was from or the disclosure was to: the student, school officials with legitimate educational interests, a party with consent from the student or a party seeking directory information.

For more detail, the University policy, which incorporates legal requirements, is available via Pennbook.

GRADUATION

Requirements
All degree requirements must be completed within a five-year period after admission to DNP program. Candidates who are unable to meet this requirement must petition for an extension to the Academic Standards and Progressions Committee. Any additional requirements in effect at the time of re-evaluation must be completed.

Any failures or incomplete grades must be addressed prior to request for graduation. A cumulative GPA of 3.0 is required. All University balances must be paid in full.

Applications for diplomas will be emailed to students during the academic year. Students must complete the online applications according to the instructions. Diplomas are issued three times each year, in May, August, and December. The diplomas of May graduates are mailed in late-July, the diplomas of August graduates are mailed in mid-October, and the diplomas of December graduates are mailed in late-
February. Diplomas will be mailed approximately 8-10 weeks following the official degree conferral date (i.e., the date appearing on your diploma).

Your diploma will be mailed once your degree has been posted by your school and if you are in good financial standing. Students with outstanding University balances, incompletes, “NR” or uncleared “F” grades at the time of graduation will not be able to obtain their diplomas nor will they be able to obtain any official transcripts or other University information until the balances are paid in full. You can confirm that your degree has been posted by logging into Penn InTouch. Corrections to diplomas should be brought to the attention of the **Office of the Secretary**. The fee for a replacement diploma is $100, and the processing time is up to 8-10 weeks.

Office of the Secretary: [https://secure.www.upenn.edu/secretary/](https://secure.www.upenn.edu/secretary/)

**Ceremonies**

Each year, the School of Nursing celebrates the accomplishments of the graduating class with a special School of Nursing ceremony following the University Commencement at Franklin Field. [https://www.nursing.upenn.edu/news-events/annual-events/commencement/index.php](https://www.nursing.upenn.edu/news-events/annual-events/commencement/index.php)

**Hooding**

Graduates are responsible for either renting or purchasing their own academic regalia and information will be distributed regarding this each year. Students wear their full regalia to the University Commencement but are officially hooded by their School of Nursing Faculty Lead.

**Awards and Honors**

Students are encouraged to nominate themselves or others for the Penn Nursing Student Awards. More information about the nomination process is shared with students during the academic year via email, community updates and the **Student Awards** page.

**University and Penn Nursing General Resources and Services**

The University of Pennsylvania is committed to providing the support resources that students need to achieve their goals.

- **Academic**: [https://www.nursing.upenn.edu/student-services/advising/masters/](https://www.nursing.upenn.edu/student-services/advising/masters/)
- **Health and Wellness**: [https://www.nursing.upenn.edu/student-services/resources/conference-funding/](https://www.nursing.upenn.edu/student-services/resources/conference-funding/)
- **Cultural Resource Centers**: [https://www.nursing.upenn.edu/student-services/resources/cultural-resources-centers/](https://www.nursing.upenn.edu/student-services/resources/cultural-resources-centers/)
- **Student Life**: [https://www.nursing.upenn.edu/student-services/resources/student-life/](https://www.nursing.upenn.edu/student-services/resources/student-life/)

*For a comprehensive list of University resources consult Penn A-Z ([http://www.upenn.edu/penna-z/](http://www.upenn.edu/penna-z/)).*

*The update and review of the DNP Handbook was completed by Office of Academic Affairs February 2021.*
Doctor of Nursing Practice (DNP) Project Guidelines

This Section of the handbook includes the policies and requirements for the Development, Implementation and Evaluation of DNP Projects at Penn Nursing.

The faculty anticipate review of these guidelines and the process annually and will communicate any changes in requirements or processes to students well in advance of implementation.

The last review of these guidelines was February 2021 by Drs. Renz and Demutis.

Overview

This is an overview of the DNP Project and DNP Project courses; this should be used in conjunction with the individual course syllabi.

Process for Development

Penn Nursing faculty developed these requirements in alignment with the American Association of Colleges of Nursing DNP Essentials (2006), White Paper, Doctor of Nursing Practice: Current Issues and Clarifying Recommendations (2015), standards from professional organizations, such as the National Organization of Nurse Practitioner Faculties (NONPF), and current evidence-based practice.

Getting Started: Doctor of Nursing Practice (DNP) Project

The clinical DNP Project is an opportunity to apply skills obtained in the theoretical coursework. The Project is intended to make an impact, directly or indirectly, on patient and/or healthcare outcomes. The DNP student identifies a clinical problem, evaluates the context of the problem, conducts a thorough review of literature, and translates evidence to formulate a potential solution or intervention. The intervention is then implemented and evaluated to determine what impact it had on the given clinical problem. The findings are then shared with stakeholders, other scholars, and the public.

According to the AACN (August 2015) White Paper, Current Issues and Clarification Recommendations, at minimum, all DNP Projects should:

- Focus on a change, which impacts a healthcare outcome(s) either through direct or indirect care. Have a system (micro, meso-, or macro level) or population/aggregate focus.
- Demonstrate implementation in the appropriate arena or area of practice.
- Include a plan for sustainability (e.g. financial, systems or political realities, not only theoretical abstraction). Include an evaluation of processes and/or outcomes (formative or summative).
- DNP Projects should be designed so that processes and/or outcomes will be evaluated to guide practice and policy. Clinical significance is as important, and the Project should provide a foundation for future practice.

Clarification of DNP versus PhD Scholarship

There are essentially two types of doctoral nursing scholarship. Nurses may choose a terminal degree in nursing as a PhD or a DNP. Though both types of scholarship may generate new information, DNP scholars do not test hypothesis, theoretical models, or generate information that is considered generalizable (AACN, 2015, p 2). Rather DNP scholars focus on synthesis, translation, implementation, and evaluation of evidence to solve clinical problems. To quote the AACN, “...DNP programs focus on translation of new science, it’s application and evaluation,” (p.2). The distinction between research-focused and practice-focus scholarship be clarified to state:...Research-focused graduates are prepared to generate knowledge through rigorous research and statistical methodologies that may be broadly applicable or generalizable; Practice-focused graduates are prepared to demonstrate innovation of
practice change, translation of evidence, and the implementation of quality improvement processes in specific practice settings, systems, or with specific populations to improve health or health outcomes (AACN, 2015, p.2).”

Table 1.0. Adapted from U.S. Department of Health and Human Services Centers for Disease Control and Prevention (2011), Introduction to Program Evaluation for Public Health Programs; White, et al., (2016), Translation of Evidence into Nursing and Healthcare; and the American Association of Colleges of Nursing (2014), Key Differences Between DNP and PhD/DNS Programs.
DOCTOR OF NURSING PRACTICE PROJECT COURSE OVERVIEW

DNP Project Courses I-IV

All students enrolled in the Doctor of Nursing Practice Program will complete a DNP Project as a requirement for graduation.

The Doctor of Nursing Practice (DNP) Project involves the design, implementation, and evaluation of a structured project to improve clinical practice and/or influence health policy. The DNP Project serves as the terminal requirement for fulfillment of the DNP Degree. The DNP Project prepares students to lead and conduct a scholarly project that synthesizes, integrates, and applies learning from DNP coursework and clinical practicum experiences. The project is designed to advance nursing or inter-professional practice, and is supported by evidence-based practice guidelines, literature for best practices and quality improvement, expert consensus reports or positions statements promulgated by professional organizations/societies, and health policy reports. The DNP Project focuses on topical areas or issues of importance to the profession of nursing, population-based health, or the delivery of healthcare. The project must demonstrate potential benefit for a group, population, or community, and is not limited to any individual nurse, healthcare professional, or patient. Projects are developed in partnership with a clinical entity, community-based organization, or professional group to address a problem, challenge, or issue that is within the scope of DNP Project guidelines. The DNP Project utilizes systematic and methodological approaches to guide improvements or changes in nursing or inter-professional clinical practice or leadership, patient outcomes, and/or the practice environment. (http://www.aacn.nche.edu/publications/position/DNPEssentials.pdf) The foundation for the DNP project is guided by a theory, framework, model, scientific perspectives, published evidence-based guidelines, best practice, methodological approaches, and/or determination of need (e.g., needs assessment). Projects that meet this standard are considered evidence-based. Quality improvement or best practice projects can also be a focus of the DNP Project. Students who conduct a “needs assessment”as a rationale for determining the nature of the DNP Project should recognize that this is not considered “evidence,” but may be valuable as preliminary work to justify the DNP Project focus and/or methods.

I. Guidelines for the DNP Project

The DNP Project demonstrates the synthesis and application of the evidence as it applies to the student’s DNP work. The project reflects leadership and scholarship.

Nature of the Project: The project can address, but is not limited to, a clinical, financial, leadership- systems, or policy-related problem, challenge, or issue.

The focus of the DNP project may include:

1. Change Project: Demonstration of “small tests of change” for an existing or new intervention or strategy in a practice or community setting
2. Evidence-based Practice Project: Translation of evidence or evidence-based practice guidelines into a practice setting to achieve a desired outcome(s)
3. Quality Improvement Project: Implementation of a performance improvement (PI) or quality improvement (QI) project that utilizes a QI methodology(s) to achieve a desired outcome(s)
4. Model Evaluation Project: Evaluation of a new or existing practice model or component(s) of a care delivery system or model.
5. Innovation Evaluation Project: Evaluation of a “new” or innovative practice, which may include a new technology.
6. Data tracking and Trending Project: Analysis (tracking and trending) of existing patient-, unit/area- or organizational-level data to inform clinical and/or leadership practices.
7. Practice Analysis: Analysis of practice(s) to identify and quantify the focus of nursing practice with
population-based care, professional nursing or inter-professional specialties, leadership, and/or health policy, as well as measure adherence with guidelines, policies, and/or practices.

8. Program Evaluation: Evaluation of a new or existing program to demonstrate a change in practice and/or healthcare professional and patient outcome(s).

II. Scope of Project: The scope of the project can be limited to a practice setting unit, department, service line, or organization. The sample size or unit of analysis for the project should be determined based on:
- Nature of the project
- Access to data, patients, healthcare professionals, and practice settings
- Timeframe that is feasible to complete the project
- Representativeness of a sample for generating meaningful implications for practice and/or health policy

III. Student Expectations and Competencies for DNP Project Courses

1. Determine a topical area of interest
2. Develop a “Population-Patient Problem/Intervention/Comparison/Outcome/Time” (PICOT) Question
3. Synthesize and evaluate the strength of evidence and related literature focused on the DNP project topical area
4. Apply systematic methods to the project design and procedures
5. Develop a DNP Project Proposal according to the DNP Project Proposal requirements that outline the scope of DNP Project work
6. Obtain the appropriate Institutional Review Board (IRB) approval status for the project from the University of Pennsylvania IRB and all sites where DNP Projects will be conducted, (if required).
7. Collaborate with a team of faculty and health professionals in practice to achieve the specific project objectives and work
8. Measure relevant outcomes or data using reliable and valid methods and instruments/tools.
9. Analyze and interpret findings and outcomes using appropriate analytical approaches to the types of outcomes and data generated by the project
10. Prepare a final DNP Project Scholarly Paper that details the work and reports the analysis of DNP Project findings
11. Final presentation of DNP Project to team with full endorsement according to course syllabus
12. Prepare a manuscript for publication related to the DNP Project work
13. Prepare a poster for dissemination of DNP Project findings and Power Point Presentation
14. Submit an abstract for dissemination of the DNP Project findings to a regional or national professional society conference/meeting
15. Submission to Sigma Theta Tau or Doctor of Nursing Practice Project Repository/Scholarly Commons

Evidence-based Practice Competencies

The DNP Project courses are focused on developing competencies in the translation of research and evidence-based practice (EBP). At the completion of all four DNP Project courses, students will have achieved beginning competencies in the following areas:

1. Systematically conducts a search for external evidence* to answer clinical questions. (external evidence*: evidence generated from research)
2. Critically appraises existing evidence (i.e., clinical guidelines, summaries, synopses, syntheses of relevant external evidence) and primary studies, including evaluation and synthesis.
3. Integrates a body of external evidence from nursing and related fields with internal evidence* in making decisions about patient care. (internal evidence* = evidence generated internally within a clinical setting, such as patient assessment data, outcomes management, and quality improvement
4. Leads transdisciplinary teams in applying synthesized evidence to initiate clinical decisions and practice changes to improve the health of individuals, groups, and populations.
5. Generates internal evidence for EBP implementation practices.
7. Formulates evidence-based policies and procedures.
8. Mentors others in the EBP process through peer review.
9. Implements strategies to sustain an EBP culture.
10. Communicates best evidence to individuals, groups, colleagues, and policy makers.

IV. DNP Project Team: The DNP Student, Penn Nursing Faculty Lead, and the Site Lead

Carefully review the responsibilities of the DNP Project Team. Remember that **DNP Project Team Members must agree in writing (Form 1, DNP Project Sign Off)** to be engaged in the process. This includes advising, review of the project proposal, providing support during implementation, providing the required evaluations, and attendance at all academic DNP presentations. The Course Director for the Project Courses ensures that the objectives for the course are met. The School of Nursing Faculty Lead ensures the objectives for the DNP project are met. The Course Director and Faculty and Site Leads will meet every semester (or more frequently if there are student concerns) to evaluate the student progress. Student progress may be evaluated by the DNP Director, Associate Director and Associate Dean for Academic Programs.

The DNP Project Team is responsible for:

- Guiding the student in the development of the DNP project proposal
- Reviewing and critiquing the DNP Project Proposal
- Determining the readiness of the project for implementation
- Ensuring that the student has the necessary resources and support to conduct the project
- Mentoring the student throughout the implementation and evaluation phases of the project
- Evaluating the student’s performance on the proposal, implementation of the project, and the final summary of the project
- Communicating with the Course Director for DNP Project courses and the DNP Program and Associate Program Directors
- Reviewing and critiquing the final project summary and final products for dissemination (e.g., presentations and publications)
- Providing feedback to the student on written drafts of a cumulative scholarly paper in a timely manner

A. DNP School of Nursing Faculty Lead

The DNP Faculty Lead must hold a doctoral degree (PhD, DNSc, DNP or EdD) and be affiliated with The University of Pennsylvania School of Nursing. The DNP Faculty Lead should be identified by the student and approved by the DNP Program Director and/or Specialty Program Director. The DNP student and the Faculty Lead may identify additional faculty and or content/methods experts to serve on the project team.

**Responsibilities of the DNP Faculty Lead:**

- Mentor the student throughout the entire process of development for the DNP Project, is ultimately responsible for the student’s progression through the Project Courses.
- Assist in identifying content/methods experts to serve as team members
- Ensure that all University of Pennsylvania IRB and institution-specific (site for DNP Project) standards, requirements, and approvals for projects involving human subjects or data are met. Will Serve as faculty of record for IRB applications and all necessary training requirements for the DNP student (e.g., Collaborative Institutional Training Initiative (CITI) Program Training appropriate to the level of the project and institution-specific training)
- Establish timelines for completion of the DNP Project with the student.
- Oversee the implementation of the DNP Project and be available to address issues, challenges, and barriers that may arise
- Meet regularly with the student and DNP Site Lead to appraise the progress and quality of the project implementation
- Meet regularly with the DNP Project Course Director and DNP Director and Associate Director. These meetings occur at the beginning of every Project Course and again before the end of the semester. Meetings of course can occur anytime when one or more member feels it to be necessary.
- Ensure productive scholarly work of the student. These milestones can be found in the criteria for each DNP Project Courses.
- Review and provide constructive feedback for final DNP Project Paper and all other formats for dissemination (e.g., abstract submissions, oral presentations, and/or posters, journal submission)
- Assure that the DNP student has met all requirements for the DNP Project
- Maintains CITI certification

B. DNP Site Lead and Team Member(s):

The DNP student may invite 1) another School of Nursing faculty member, 2) a faculty member from other schools at the University of Pennsylvania, and/or 3) a leader and/or clinician (external members) from the site where the student is conducting the DNP Project. It is required that the Site Lead work or be affiliated with the site where the Project is being conducted. The external members from the DNP Project practice or organization site(s) must hold a minimum of a Master’s Degree to be eligible to be a member of the DNP team. The DNP Faculty Lead and DNP student can determine the composition of the team to bring the needed expertise in the content area, methods, and/or analytical plan for project data.

Responsibilities of DNP Site Lead and Team Member(s):

- Facilitate connections and networks to assist the student in navigating entry into the practice or organization site
- Provide expertise in developing and facilitating the project.
- Determine the feasibility of the project and preliminary work that must be performed prior to the project
- Assist the student to obtain the necessary permissions, letters, and sign-offs that may be required for the DNP student to begin the project
- Assist the DNP student to successfully complete any regulatory or training requirements of the institution
- Ensure access to project populations, electronic systems, data, and other resources necessary to complete the project
- Provide oversight for the implementation of the DNP Project
- Provide feedback to student in a timely manner
- Communicate concerns to student and The School of Nursing Faculty Lead in a timely manner.
- Agrees to read and review all drafts of the project within a timely (usually 2 week) turnaround

C. DNP Student Team Member:

As noted above, the DNP Project establishes a foundation for scholarly productivity to advance nursing practice in clinical care, leadership, and/or health policy.

Responsibilities of each DNP Student whether working individually or with a group of students:

- Demonstrate a high level of professionalism
- Develop a scholarly project based on an identified area of need within a specialized area of practice under the guidance of a DNP Faculty Lead
- Establish targets and goals, realistic timelines for the project and adhere to established timelines for
progression and completion of DNP Project requirements

- Regularly review progress toward goals with the School of Nursing Faculty and Site Leads
- Comply with University of Pennsylvania Guidelines for Responsible Conduct of Research (http://www.upenn.edu/research/compliance_training/responsible_conduct_of_research/) including current completion and/or verification of completion of CITI training appropriate to the DNP Project
- Comply with all regulations, mandates, and policies at the School of Nursing as well as the practice sites, including training requirements; and maintaining confidentiality, security, and protection of protected health information (PHI), clinical information, or data.
- Obtain sign-offs for all forms, and submit these to the Administrator in the Office of Student Information, for DNP Program as required.
- Seek ongoing advice and guidance from faculty and individuals at practice sites when implementing the project.
- Achieve DNP Project milestones as they adhere to the University of Pennsylvania's Code of Academic Integrity (http://www.upenn.edu/academicintegrity/ai_codeofacademicintegrity.html).

V. Team Projects

Students who work together on a project must all make equal and substantial contributions to the project. All team members are responsible for designing the project; preparing a proposal; implementing the project; and interpreting, evaluating, and/or analyzing, and reporting the project findings.

Every team member must submit individual work. Every student is responsible for proficiency in all aspects of the DNP Scholarly Work, Penn Nursing must validate for the DNP degree that each student has attained all of the DNP Essentials outcomes.

If there are any concerns regarding any team members’ contribution, the Course Director and/or School of Nursing Faculty Lead will request to review the students’ individual work and notes. Any concerns regarding the contributions will be addressed with the Faculty Lead, Course Director, DNP Program Director, and the Associate Dean for Academic Programs.

The DNP Faculty Lead will ensure the synergy of the work and that all students on a team have sufficient guidance and oversight to conduct the DNP Project work. The DNP Site Lead will participate in all aspects of the students’ work.

VI. Sequencing of DNP Project Work:

The DNP Project topical area should be determined in the first DNP Project course, NURS 851, and continued to be refined and developed in the remaining courses: NURS 852, NURS 853, and NURS 854. No student may progress to the next course unless they have successfully completed the preceding required DNP Project Management Course.

There is a concise checklist (Form 2) to help guide you with the minimal course expectations, strategies to be successful and FAQs.

VII. Clinical Hour Verification for DNP Degree

The AACN (2015) asserts that to achieve mastery of the DNP Essentials, a nurse must complete a minimum of 1,000 beyond the BSN or baccalaureate degree. These hours must be part of an academic program. Work experience is not accepted as a substitute.

VIII. Graduation Criteria

The School of Nursing DNP Project Leader determines if the student has successfully met graduation criteria.

DNP Project Checklist

The purpose of this checklist is to ensure that students, faculty, and other stakeholders are aware of the requirements for each phase of the DNP Project process. Details of each item can be found within the body of the full paper and within each specific course’s syllabus. These items are minimum expectations.
