

ONR now offers several options for Mock Reviews: **Specific Aims Mock Review**; **Abridged Mock Review**; and **Full Mock Review**. Mock reviews are available to SON faculty and Post-Doctoral Fellows for both internal and external proposals. Doctoral students may participate in Specific Aims workshop and Mock Review Sessions with Mentor’s approval and presence at requested sessions.

**Procedure**

Request mock review when registering proposal submission or email [research@nursing.upenn.edu](mailto:research@nursing.upenn.edu) and indicate which type of Mock Review you are requesting. Include a list of four or five faculty members you’d like to have participate in the review and 4 or 5 dates that you are available for the review. The ONR executive coordinator will work with your suggested reviewers to set a date for the review. Send the “materials for review” to the executive coordinator at least 10 days before the review session (if applicable). ONR will distribute materials to the reviewers.
